# **SORBENT SWEEP U941800**

Product number: 703241 Product group: 941

The Sorbent Sweep is specifically designed for use onboard vessels to efficiently absorb oil and petroleum-based liquids. Ideal for cleaning up oil spills on the water's surface around ships and boats, this sweep is made from 100% polypropylene material, which absorbs only oil and not water.

Equipped with nylon straps for easy attachment, the sweep can be dragged across the water surface to attract and retain oil, leaving the water unaffected. Even when fully saturated with oil, the sweep continues to float, providing a fast and effective solution for managing oil and fuel spills on vessels.

#### **Product information**

#### Features

• The sweep has built in tension straps so you can control the recovery of the sweep

#### Benefits

- Easily controllable
- Easy disposal

#### **Specification**

General

Quantity

## Dimensions/Weight

Length	30m
Weight [kg]	4.5
Width [mm]	480

### Performance data

Absorbing capacity	110

#### **Documents**

SDoC and MD for IHM
