

UNITOR AEROFLOW DOUBLE DIAPHRAGM PUMP 3/8 INCH PP - FLUID & AIR HOSE KIT

Product group: Product number: **770200**

The UNITOR™ Aeroflow Double Diaphragm Pump 3/8" PP – Fluid & Air Hose Kit is a hose bundle designed to support the installation and operation of the Aeroflow diaphragm pump onboard ships or in workshop environments. This set includes dedicated hoses for both fluid handling 3/8" (inlet and outlet) and air supply 1/4", ensuring proper connectivity and optimal performance.

Product information

Supplied with

- **AIR HOSE 3/8", RUBBER – 50 METER COIL (PN: 671750)** High-quality rubber hose designed for use as both **fluid inlet and outlet lines**. Its robust construction offers excellent resistance to chemicals and mechanical wear, making it ideal for transferring liquids through the pump.
- **AIR HOSE 1/4", PVC – 50 METER COIL (PN: 671693)** A flexible and lightweight PVC hose is specifically used for the **compressed air supply** to the pump. Suitable for operating the diaphragm mechanism with consistent air pressure.
